To whom it may concern,

I am pleased to provide this letter of Endorsement in support of the Morithitho Foundation, a Non-Profit Organisation founded and directed by Ms. Tebogo Kgobokoe.

The Morithitho Foundation runs various projects in the arts and entertainment industries that have the aim of bringing quality skills to the less privileged, thereby uplifting their lives through cultural recognition and the arts.

The Morithitho Foundations' mission is to produce excellence through empowering and teaching artistic individuals and creating job opportunities in the arts sector of South Africa and Africa.

We have been engaged with the Morithitho Foundation in March 2020 and have had the pleasure of first-hand experience on some of the projects the Foundation is running, specifically at the Tebogo Kgobokoe Arts Academy.

We have witnessed that the Morithitho Foundation projects successfully contributed towards

- bringing together and building children and youth from different communities and helping create a safe environment for self-expression through the arts and culture
- uniting the youth, promoting social development, cohesion, and nation building through the dance competition programmes as well as attracting local and international residents and spectator participation in the arts
- enabling social cohesion conversations about South Africa and involvement of the youth in its future
- hosting cultural events that show the multicultural diversity of South African by its youth through fine art and dancing.

We believe that the Morithitho Foundation have a meaningful impact on many young lives in the community and should be further protected and supported to advance & sustain that impact.

Sincerely yours,

Thabo Molekoa, CEO Regional Office sub-Saharan Africa
